Leading for Patients Integration Activity Status Update

**Central East LHIN Board Meeting
January, 2015**

Short Term Opportunities Identified in 2013 Workbooks

- Teams for each integration activity continue to meet to refine and detail strategies to move their opportunity forward.
- Opportunities are being tracked in a standard project management structure to ensure quarterly progress reports are provided to the Central East LHIN Board.
- Key deliverables have been defined including metrics to measure success.
- Three of the eight opportunities have been completed and closed.
- Updated detail on each opportunity included in Appendix A.

New Integrations to Advance Health System Transformation

- Both RVHS and TSH contributed to the development of the business plan for the South Scarborough Health Link now submitted to the Ministry.
- RVHS and TSH have submitted joint proposals related to Pediatric Developmental Care (funded) and the establishment of a Pediatric Obesity Clinic (pending).

Regional Planning Opportunities

Ongoing cooperation and planning on these regional services:

- Vascular
- Diabetes
- Oncology
- Cardiology
- Nephrology
- Orthopedics
- Thoracic Services
- Mental Health and Addictions
- Maternal Newborn/Pediatric Services
- Vision Care
- Information Technology

Maternal Child Youth – Motion 1B

- 3 potential options for the regional designation have been defined for consideration. These options have been reviewed using the Central East LHIN standard decision-making criteria and Expert Choice survey technology to rate these options. Conversations continue related to the methodology utilized to tabulate the results.
- The draft final report will be tabled with each organization's Senior Management Team the week of Jan.19,2015
- The final report including each organization's recommendation will be presented to their respective Board in the coming weeks.
- The final recommendation of each organization will be presented to the Central East LHIN Board in March 2015.
- ***Target date for implementation of Regional Advanced Level 2C Neonatal/Pediatric service is summer 2015.***

Governance Oversight

- Board Chairs for Central East LHIN and hospitals continue to meet
